Safe Pro Inu

White Paper

Love Meme Token is out with a Primary mission to provide and Create an indeed transparent, honest and people friendly Project from a dedicated team that is always ready to carry the Community along.

As most people in this Technology Space all know that Genuine projects that mean really well for the people (investors) for long term are not very common.

Statistics has shown that Community based tokens are somewhat popular than it used to be, this actually has put some limits to the level of Growth and Peak that some of the Projects desired.

This kind of Project no doubt are out there but ours is born to rule and become a mighty force that Recognising / Identifying with it becons to everyone.

Safe pro Inu as a Promising and Vibrant Project is Out to Deliever a Strong Project. Our aim is to become the most Honest, humble and transparent.

We hence, with all due Respect and Humility Solicit for maximum and Committed involvement from the General Community.

Of course, there is no project of this kind that would or can succeed without the Community.

Opportunity shall be readily available to all our community members to always participate in all important decisions that would be made by the team in other to bring this project to the very front page of the heart of the People (Our SPI Prestigious Holders), with this, we the team would always be humble enough to reach out to the community on all vital decisions that could Catapult the Project to the Moon and even beyond.
